1. Introduction

This is the 26th monthly report on violence and other forms of human rights violations on the basis of sexual orientation and gender identity/expression since the Anti-Homosexuality Act (AHA) came into force on 30th May 2023. The report discusses cases in which known or suspected LGBTIQ persons were targeted for violence and violations purely on the basis of their SOGIE as reported in the month of July 2025. A comparison is made with the month of June 2025. This report builds on the reports produced earlier for every month since the AHA came into force and therefore seeks to build on the data available about the enforcement of the AHA 2023 from 30th May 2023 to date.

2. Methodology

This report provides an overview of cases of violence and human rights violations on the basis of SOGIE that were reported to the HRAPF legal aid network during the month of July 2025. Quantitative data for this report was obtained from a review of case files for data on the number of cases handled and the number of cases in which acts of violence or other human rights violations were identified. The data was then subjected to a qualitative analysis to ascertain the circumstances under which the incidents occurred, in order to ensure that only cases in which such acts were perpetrated purely or primarily on the basis of real or presumed SOGIE are included in the report. All data reported has been independently verified to ensure its accuracy.

The data presented in this report is limited by the fact that it covers only cases reported through the HRAPF legal aid network. The report presents a fair picture of the situation for LGBTIQ persons across the country as reported to HRAPF's countrywide network of community paralegals, regional legal aid centres, specialised community legal aid desks and the main legal aid clinic, but it may not be representative of all LGBTIQ persons' lived realities during the month, as not all cases that occurred in July 2025 were reported to HRAPF's network.

3. Nature and number of cases reported

HRAPF handled a total of 41 cases in the month of July 2025, a significant reduction from the 57 cases handled in the month of June 2025. Out of the 41 cases handled, 12 cases involved actions that directly targeted people for negative treatment on the basis of their SOGIE, representing 29.3% of all the cases handled during the month of July 2025. This represents a reduction from June 2025, where 19 cases were registered where people were targeted for negative treatment on the basis of their SOGIE. A total of 14 persons were affected by the violations in July 2025 as compared to 60 people in June 2025 - a sharp reduction in the number of victims. Out of the 12 cases in which LGBTIQ people were specifically targeted for violent or otherwise detrimental treatment during the month of July 2025, 4 were eviction cases, 5 cases involved violence and threats of violence against victims due to their actual or presumed SOGIE, 2 cases involved other forms of discrimination, and 1 case involved arrests for sexuality related reasons.

This section of the report provides detailed data on these cases.

3.1. Evictions

There were 4 cases of evictions on the basis of sexuality in July 2025, affecting 4 persons. One case was reported in each of the districts of Wakiso, Mbale, Jinja and Lira. The evictions were executed by the clients' families in 3 cases and the local leaders in 1 case.

No.	HRAPF/PA Case code	Date of reporting	District	Perpetrator	Brief facts	No. of Victims
1.	HRAPF/PA/864 /2025	11/07/25	Wakiso	Community leaders	The client in this case had some disagreements with his roommates and was forced to move out and store his personal properties with the area woman councillor. When he went back to retrieve his property, she declined to hand it over and informed him that the area chairperson had ordered an investigation first, and that if he was found to be a homosexual, he would be required to leave the village entirely.	1
2.	HRAPF/PA/865 /2025	24/07/25	Jinja	Family	The client in this case is a transgender man who had been living with his parents while studying. His parents became suspicious about his sexuality and confiscated his phone, where they found intimate photos and videos of him with his partner. They thus demanded that he leave the house immediately and also stopped paying his tuition at university, stating that they would not associate with or waste their money on a homosexual.	1
3.	HRAPF/PA/866 /2025	30/07/25	Lira	Family	The client in this case works with a health facility that primarily serves KPs. Her brothers heard about this and confronted her, giving her an ultimatum of 1 month to either quit the job or leave the family home as they did not want to be associated with homosexuals in any way.	1
4.	HRAPF/PA/867	23/07/25	Mbale	Family	The client in this case hosted her partner at her parents'	1

	/25				home, where she was living at the time. The partner had visited home several times before with no issues, but on this occasion, the client's sister confronted her, informing their parents of rumours that the client was a lesbian and alleging that she and her guest were probably being intimate in the parents' home. The family reacted harshly, demanding she leave immediately and never return. They also withheld her passport, bank cards and academic documents, and forced her to leave the home with only a few clothes late in the night.

3.2. Cases involving actual violence and threats of violence

A total of 5 cases involving violence and threats of violence were registered in July 2025, affecting 7 individuals. 3 of the cases involved actual violence towards the victims due to their SOGIE while 2 cases involved threats of violence.

Cases involving actual violence

There were 3 reported cases of actual violence in July 2025, affecting 4 individuals, and they all involved physical assaults. 2 cases were reported in Kampala and 1 was reported from Kabarole. 2 of these incidents were perpetrated by unknown persons while 1 was perpetrated by individuals from the general community where the victim ordinarily resides.

3	HRAPF/PA/871 /2025	25/7/25	Kabarole	Physical violence	General community	The client in this case was accused of assault by a young man he had met at a prayer meeting, although the matter was later dropped by the complainant and the police authorities. About a month later, a group of young men from the neighbourhood broke into his home and beat him up, accusing him once again of assaulting the young man and spreading homosexuality.	1

Threats of violence

There were 2 reported incidents of threats of violence in the month of July 2025, affecting 3 people. The cases were reported in Lira and Kampala districts, and involved threats of physical harm.

						were still researching her but they would soon expose her and she would not like the consequences. She walked away but later that night, some people tried to break into her home and when she raised the alarm, they jumped over the perimeter wall and disappeared. She suspects that it may have been the same group.	
2.	HRAPF/PA/875/2025	02/07/25	Kampala	Physical harm	General community	The clients in this case are a couple that rent a home near the offices of a well-known LGBTQ-support organisation, which they also visit often. They report that one evening as they were walking home, they were heckled by a group of men that they passed by at a shop in their neighbourhood. The group shouted at them, calling them derogatory names and threatening to 'punish' them if they did not change their ways or leave the village.	2

3.3. Arrests

There was 1 case in which a person was arrested purely on the basis of their presumed SOGIE in July 2025, as compared to June, where 16 cases were registered, affecting 44 persons. 3.4. Other forms of discrimination

During the month of July 2025, one case of dismissal from employment and one case of blackmail were reported from Mbarara district, affecting 2 individuals.

1.	HRAPF/PA/873 /2025	17/07/25	Mbarara	Blackmail	The client's aunt and mother went to her home and tried to blackmail her into agreeing to a marriage with a man they had selected for her. They threatened to publicly expose her sexuality unless she complied with their demands.	1
2.	HRAPF/PA/874 /2025	24/07/25	Mbarara	Dismissal from employment	The client is a transgender woman who was dismissed by her employer from work without pay. The employer claimed that some customers at the restaurant were not comfortable with her appearance and how she behaves like girls yet she is a biological male, and that she makes customers uncomfortable.	1

4. Comparison with June 2025

There was a decrease in the overall number of cases reported in July 2025, from 57 cases in June 2025 to 41 cases, and the number of cases in which individuals were targeted for violence and other violations on the basis of their SOGIE also reduced significantly from 19 in June to 12 in July 2025. Similarly, the number of individuals affected by these violations reduced significantly from 60 persons in June 2025 to 14 persons in July 2025. Cases involving threats and actual violence were the highest number of cases in July. The total number of cases registered has reduced alongside the number of cases in which individuals were targeted for violence and abuse on the basis of their sexuality.

5. Comparison with July 2024

In July 2024, HRAPF handled a total of 72 cases involving LGBTIQ persons. Out of these, 34 cases involved actions that directly targeted people for negative treatment on the basis of their SOGIE, representing 47.2% of all the cases handled during the month, and 40 persons were affected by the violations. In comparison, these figures have dropped significantly in July 2025, with only 41 cases handled, of which 12 involved targeted homophobia (29.3%) The number of individuals affected by these incidents also reduced to 14 in July 2025, compared to 40 from July 2024.

6. Comparison with July 2023

In July 2023, just 2 months after the AHA came into force, a total of 84 cases were handled involving LGBTIQ persons, of which 53 cases involved actions that directly targeted persons on the basis of their real or presumed SOGIE (63.1%). The proportion of reported cases in which SOGIE-motivated violence has been verified therefore has reduced in the two years between July 2023 and July 2025 by 33.8%.

7. Comparison with the pre-AHA period - July 2022

The reduction in the number of cases handled in July and the number of cases in which individuals were specifically targeted for detrimental treatment on the basis of their SOGIE begs a comparison with the pre-AHA period, to ascertain if the numbers in July 2025 indicate a return to pre-AHA levels of homophobia. In July 2022, there was a total of 28 LGBTIQ cases reported across the HRAPF legal aid network, and of these, only 6 (21.4%) involved incidents where LGBTIQ persons were specifically targeted on the basis of their sexuality, affecting 6 persons, as compared to 12 cases affecting 14 people in July 2025 - an indication that, while the situation may appear to be settling for the majority of LGBTQ persons in Uganda, it is still far from ideal, and the violence and violations remain higher than pre-AHA levels.

8. The implementation of the AHA 2023 from 30th May 2023 to 31st July 2025

As the implementation of the AHA marks two years and two months, a total of 1,841 cases involving LGBTIQ persons have been handled across the HRAPF legal aid network, of which 875 cases (47.5%) involved actions that specifically targeted LGBTIQ people because of their sexuality, affecting a total of 1,149 persons.

The breakdown of all the cases by month so far is as follows:

Nature	of	June	to	Jan	to	July	to	Jan	Feb	March	April	May	June	July	Total number
--------	----	------	----	-----	----	------	----	-----	-----	-------	-------	-----	------	------	--------------

Total	440	367	160	28	19	19	22	19	60	12	1,149

9. Conclusion

The implementation of the AHA continues to negatively impact on the rights of LGBTIQ persons, and it remains critical that the AHA and all the laws which are aimed at curtailing the rights of LGBTIQ persons are nullified as a critical first step towards protecting the rights of LGBTIQ persons in Uganda. This month presents a marked decrease in the number of cases involving violations, but this is not yet up to pre-AHA levels. We are yet to see of this trend will normalise or July 2025 was simply an outlier.
